Ivan Komlev - Software Development Expert | PHP, JavaScript, SQL

Summary

Versatile and accomplished software developer with over 17 years of experience crafting innovative and scalable software solutions. Proven expertise in a comprehensive range of programming languages and technologies, including PHP, JavaScript, SQL (MySQL and Microsoft SQL), C#, C++, Python, Java, and LUA. Adept at leveraging Agile and Waterfall methodologies to deliver high-impact projects within budget and on time. Thrives in both independent and collaborative environments, fostering a culture of innovation and excellence.

As a non-US resident living in Panama, I cannot be directly employed by US companies. However, I am pursuing remote contractor roles through my legally established Alaska LLC (JoomlaBoat, LLC). By contracting services through my US-based LLC, I can compliantly provide services to US companies while residing abroad. I am available to take on projects as an independent 1099 contractor working through my Alaska LLC.
