Experience

Senior Programmer

- **Employer:** Asociacion MMd Panama, S.A., Panama City, Panama
- **Duration:** November 2023 – Present
- **Details:**
  - Currently involved in the maintenance and development of new functionality for the company's internal operational software.
  - Responsibilities include ensuring the stability, performance, and ongoing improvements of the software.
  - Collaborating with cross-functional teams to identify requirements and implement solutions that meet the organization's needs.
  - Contributing to the full software development lifecycle, from conception to deployment, while adhering to project timelines and objectives.
  - Actively participating in team discussions, sharing expertise, and providing technical guidance when necessary.

– Continuously evaluating and implementing innovative technologies to enhance software efficiency and effectiveness.

Programmer

- **Employer:** The Oxford School, Panama City, Panama
- **Duration:** April 2014 – February 2023
- **Details:**
  – Developed and maintained the Oxford School Management System (OxfordSMS), a comprehensive school management system used by over 5 schools in Panama.
  – Managed the entire software development lifecycle, from requirements gathering to deployment and maintenance.
  – Collaborated with teachers and administrators to ensure the system met their needs.

Web Master

- **Employer:** Design Compass Corp, Panama City, Panama
- **Duration:** July 2011 – April 2014
- **Details:**
  – Developed and maintained front-end and back-end websites for diverse clients.
  – Implemented responsive design principles ensuring compatibility across various devices.
  – Conducted usability testing and recommended improvements.

Software Developer

- **Employer:** SIG Panama, Panama, Panama
- **Duration:** March 2008 – March 2009
- **Details:**
  – Developed a digital map of Panama using C# and a custom polygon framework.
  – Created a map editor for employees to draw buildings and roads over satellite photos.
  – Developed an end-user interface for navigating the map.

Web Programmer

- **Employer:** Nata Corp, Limassol, Cyprus and Panama
- **Duration:** August 2005 – June 2011
- **Details:**
  – Developed a company catalog website and a software complex to track and analyze visitor activity on websites.
  – Implemented back-end in pure PHP and tracking system in C++.

Education

- **Informatics and Computer Engineering**
- **Institution:** Izhevsk State University, Izhevsk City, Russia
- **Duration:** September 1998 – May 1999 (Incomplete)

Note: I moved to different countries (Prague and then Cyprus) due to personal reasons, which led to the discontinuation of formal education. However, I continued my learning independently, acquiring practical skills and knowledge in software development through self-study and real-world experience.

Personal Projects
